

Staff Perfusionist – Corpus Christi, TX

Description

A well established perfusion group seeking a full time perfusionist to join our staff of six. We offer a competitive salary, exceptional benefits, relocation assistance and continuing education allowance. The perfusion duties include a variety of adult cardiac procedures including, TAVR, minimally invasive procedures, OPCAB, IABP, pediatric ECMO(Centimag) and limited adult ECMO (Cardiohelp). On call responsibilities are shared among the team members.

Responsibilities

This professional will use their clinical expertise, specialized knowledge of extracorporeal technology, and medical therapy to maintain life support of cardiac patients. In consultation with the cardiovascular surgeon or other physicians, the perfusionist uses independent activity and decision making to ensure safe and effective patient management while on extracorporeal circulation or cardiac assist.

Qualifications

- Graduate of an accredited perfusion program
- Board eligible or certified by the ABCP
- Pediatric perfusion experience is a plus
- New graduates encouraged to apply
