Raleigh, NC FT Position – \$5,000 Signing Bonus

Description

Become part of an inclusive organization with over 40,000 diverse employees, whose mission is to improve the health and well-being of the unique communities we serve.

Summary:

Rex CVOR (Cardiovascular Operating Room) is hiring a Clinical Perfusionist to join their cardiac surgery program!

This is highly technical work involving providing circulatory support for patients undergoing open-heart surgery and long-term cardiac and pulmonary support, such as extracorporeal membrane oxygenation and ventricular assist through mechanical assistance. Teammates will work independently under the general supervision of the Chief Perfusionist.

Responsibilities

1. Assists surgeons and anesthesiologists in the operating room during open-heart surgery to maintain all patient temperatures and pressures as directed by physicians.
2. Cleans equipment and has it serviced for any malfunctions observed.
3. Contributes to continuous quality improvement which focuses on customer satisfaction, outcomes, and cost
4. Provides patient and support staff training related to ancillary equipment.
5. Reviews patient's history, physical and heart catheterization data prior to surgery to determine appropriate circuit required. Maintains the perfusion record during each case.
6. Sets-up, processes, and disposes of cell saver supplies as outlined in the perfusion manual for autotransfusion.
